

Strategy Document: Google Fiber Repeat Caller Dashboard

Sign-off Matrix

Name	Team / Role	Date

Proposer: [Your Name], BI Analyst

Status: Draft

Primary dataset: Google Fiber customer support call data (fictionalized, anonymized): number of calls, repeat calls, call/problem type, market city, date

User Profiles

Intended audience: Google Fiber customer service leadership — Emma Santiago (Hiring Manager), Keith Portone (Project Manager), Minna Rah (Lead BI Analyst) — plus team members Ian Ortega and Sylvie Essa, all with dashboard access.

Expected use: stakeholders will use the dashboard to evaluate first-contact resolution effectiveness, identify which problem types and markets generate the most repeat calls, and track repeat-call trends over time to guide process and training improvements aimed at reducing overall call volume. The dashboard must be accessible via large print and text-to-speech, per Minna Rah's requirement, and stakeholders need access to the underlying data to review the analysis.

Dashboard Functionality

Feature	Your Request
Reference dashboard	None specified — no existing dashboard to model this on.
Access	Limited to 5 named individuals: Emma Santiago, Keith Portone, Minna Rah, Ian Ortega, Sylvie Essa. Stakeholders also need access to the underlying datasets.
Scope	Include: number of calls, number of repeat calls after first contact, call/problem type, market city, date, and the 7-day repeat-call window fields (contacts_n through contacts_n_6). Exclude: any data beyond the pre-approved, anonymized fields provided.
Date filters and granularity	Date filter required. Granularity drop-down needed for week, month, quarter, and year views, since stakeholders must be able to view trends at all four levels.

Metrics and Charts

Chart 1 — Repeat Calls by First Contact Date

Chart Feature	Your Request
Chart title	Repeat Calls by First Contact Date
Chart type	Line chart or table
Dimension(s)	First contact date (contacts_n)
Metric(s)	Count of repeat calls within the 7-day window

Chart 2 — Repeat Calls by Market and Problem Type

Chart Feature	Your Request
---------------	--------------

Chart title	Repeat Calls by Market and Problem Type
Chart type	Grouped/stacked bar chart
Dimension(s)	Market city (market_1-3), problem type (Type_1-5)
Metric(s)	Count of repeat calls

Chart 3 — Repeat Call Trends by Week

Chart Feature	Your Request
Chart title	Repeat Calls by Week
Chart type	Line chart
Dimension(s)	Week
Metric(s)	Count of repeat calls

Chart 4 — Repeat Call Trends by Month

Chart Feature	Your Request
Chart title	Repeat Calls by Month
Chart type	Line chart
Dimension(s)	Month
Metric(s)	Count of repeat calls

Chart 5 — Repeat Call Trends by Quarter

Chart Feature	Your Request
Chart title	Repeat Calls by Quarter
Chart type	Bar or line chart
Dimension(s)	Quarter
Metric(s)	Count of repeat calls

Chart 6 — Repeat Call Trends by Year

Chart Feature	Your Request
Chart title	Repeat Calls by Year
Chart type	Bar chart
Dimension(s)	Year
Metric(s)	Count of repeat calls

Dashboard Mockup

[Wireframe/mockup to be inserted — layout: top KPI row (total calls, total repeat calls, repeat-call rate %); left panel repeat calls by market/problem type (grouped bar); right panel repeat calls by first-contact date (line); bottom band houses week/month/quarter/year trend views behind a granularity toggle, with a global date filter docked at top.]
